Dear Shareholder,

On behalf of the Directors, I am pleased to invite you to take up your entitlement in a 8 for 1 (8 new Shares for every 1 existing Share) renounceable pro rata entitlement offer to subscribe for Shares at an issue price of A\$0.02 Share (**New Shares**) to raise A\$18,804,170 (subject to rounding and before costs) (**Entitlement Offer**).

To request an electronic copy of the Prospectus and your personal application form, visit <https://pureprofile.investorportal.com.au/request-forms/>

The Entitlement Offer is fully underwritten to A\$18,804,170 by Lucerne Finance Pty Ltd (ACN 618 123 845) (**Lucerne**) and Peloton Capital Pty Ltd (ACN 149 540 018) (**Peloton**) (each an **Underwriter**). As a result of the Underwriters' commitments, the Company will raise approximately A\$18.8 million (subject to rounding and before costs). Further details of the Underwriters, including a summary of the key terms of the underwriting agreements, are set out in Section 6.6 of this Prospectus.

The Company intends to use the proceeds of the Entitlement Offer as follows:

- partially pay down, and convert the remainder of the Company's existing debt with Lucerne to equity;
- inject funds into the sales team and global panel partnership;
- continue to commercialise the Company's technology;
- provide working capital for the Company; and
- pay the costs of the Entitlement Offer.

We will be hosting a live interactive briefing to discuss the Entitlement Offer as well as recent Company updates on Thursday 29th October at 7pm & Thursday 5th November at 7pm. This will include a Q&A session.

Book a spot here – <https://pureprofile.investorportal.com.au/shareholder-briefing/>

The Entitlement Offer provides Eligible Shareholders with the opportunity to increase their investment in the Company. The Entitlement Offer will include a Shortfall Facility under which Eligible Shareholders, excluding Related Parties, who take up their full Entitlement will be invited to apply for additional New Shares from a pool of those Entitlements not taken up by other Shareholders of the Company (**Shortfall Shares**). There is no guarantee that Applicants under this Shortfall Facility will receive all or any Shortfall Shares applied for under the Shortfall Facility. The Board of the Company reserves its right to alter the allocation policy and to allocate and issue Shortfall Shares under the Shortfall Facility at its discretion. For further information on the Shortfall Facility, including the allocation policy, please refer to Section 5 of this Prospectus.

Each of the Directors who holds Shares, either directly or indirectly, intends to take up their full Entitlement under the Entitlement Offer. **In addition, as disclosed above, the Entitlement Offer is fully underwritten which may affect the control of the Company, including the possibility of one of the Underwriters, Lucerne, having a resulting voting power of greater than 19.9% in certain circumstances. A summary of the potential control implications is set out in Section 6.4 of this Prospectus.**

Key information with respect to the Entitlement Offer is set out in this Prospectus. Please read the Prospectus carefully (in particular the "Risk factors" in Section 8, which describe a number of

key risks associated with an investment in the Company). If there is any matter on which you require further information, you should consult your stockbroker, accountant or other professional adviser.

The number of New Shares that you are entitled to subscribe for under the Entitlement Offer is set out in your personalised Entitlement and Acceptance Form accompanying this Prospectus. If you are an Eligible Shareholder and you wish to accept your Entitlement, you will need to complete the Entitlement and Acceptance Form and return it together with the appropriate application money to the Company's Share Registry so that it is received by no later than 5.00pm (Sydney time) on Tuesday, 17 November 2020 (**Closing Date**).

As the Entitlement Offer is renounceable, your right to participate in the Entitlement Offer is transferable. You may trade your Entitlement on ASX or transfer it to another person. Further details of how this may be done are provided in Sections 5.4 and 5.5 of the Prospectus. Your Entitlement may have value and it is important that you determine whether to take up, sell or do nothing with your Entitlement.

Eligible Shareholders who do not take up their Entitlement or trade them in accordance with this Prospectus will not receive any value for those Entitlements and their proportionate economic interest in the Company will be diluted. Entitlements not taken up may become available as Shortfall Shares. Shareholders who are not Related Parties may, in addition to their Entitlements, apply for Shortfall Shares over and above their Entitlement at the issue price of A\$0.02 subject to the takeover prohibition in Chapter 6 of the Corporations Act.

Information regarding how to apply for New Shares under the Entitlement Offer is set out in Section 9.

Shortfall Offer

Any New Shares not applied for under the Entitlement Offer will form part of the shortfall from the Entitlement Offer (**Shortfall Shares**). The Shortfall Shares will be offered to investors who will be invited by the Company to subscribe for Shortfall Shares which, together with the Entitlement Offer, to raise up to approximately A\$18.8 million (before expenses and subject to rounding) (**Shortfall Offer**).

Other investors who are not Eligible Shareholders may apply for Shortfall Shares using the Shortfall Offer Application Form. An electronic copy of this Prospectus and Shortfall Application Form can be requested from the Company by visiting: <https://pureprofile.investorportal.com.au/request-forms/>.

Persons outside Australia doing so will be taken to have represented to the Company that they can apply for Shortfall Shares in circumstances which do not require the offer for Shortfall Shares or this Prospectus to be registered.

Information regarding how to apply for Shortfall Shares from the shortfall of the Entitlement Offer is set out in Section 5.6.

It is possible that there may be no Shortfall Shares available for issue.

Subject to the above, the Directors reserve the right at their absolute discretion and subject to the Corporations Act and Listing Rules, to issue Shortfall Shares at their discretion, and to reject any application for Shortfall Shares or to issue a lesser number of Shortfall Shares than that applied for. It is an express term of the Shortfall Offer that Applicants for Shortfall Shares will be bound to accept a lesser number of Shortfall Shares allocated to them than that applied for. If a lesser number is allocated, excess application money will be refunded without interest as soon as practicable after the Closing Date.

Rights and liabilities attaching to the New Shares

The rights attached to the New Shares offered pursuant to this Prospectus are summarised in Section 10 of this Prospectus. The New Shares offered under this Prospectus will rank equally with the existing Shares on issue as at the date of this Prospectus.

5.2 Eligibility of Shareholders

The Entitlement Offer is an offer to Eligible Shareholders only.

Eligible Shareholders are Shareholders on the Record Date, 7.00 p.m. (AEDT) on Thursday, 22 October 2020, who have a registered address that is in the Permitted Jurisdictions or that the Company has otherwise determined are eligible to participate. In particular, this Entitlement Offer is not made to any person who is ineligible under applicable securities laws in any country to receive an offer under the Entitlement Offer without any requirement for a prospectus to be lodged or registered.

5.3 Beneficial holders, nominees, trustees and custodians

Nominees and custodians that hold Shares should note that the Entitlement Offer is available only to Eligible Shareholders. The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of securities. Persons acting as trustees, custodians or nominees must not take up Entitlements or apply for New Shares on behalf of, or for the account or benefit of, or send any offer material regarding the Offers to, any beneficial shareholder in the United States, and in any country outside Australia, Malaysia, New Zealand, Papua New Guinea and Singapore except, with the consent of the Company, to beneficial shareholders resident in certain other countries where the Company may determine it is lawful and practical to make the Offers.

5.4 Entitlements Trading on ASX

Entitlements are renounceable, which means that all or part of an Eligible Shareholder's Entitlement, may be traded on ASX. If you wish to sell all or part of your Entitlement on ASX, then you should provide instructions to your stockbroker regarding the Entitlement which you wish to sell. You may incur brokerage costs if you sell your Entitlements on ASX. Trading of Entitlements on a normal settlement basis will commence on ASX from market open on Wednesday, 28 October 2020 and cease on Tuesday, 10 November 2020.

There is no guarantee that an Eligible Shareholder, will be able to sell all or any part of their Entitlement on ASX or that any particular price will be paid for the Entitlements sold on ASX.

This Prospectus, along with your Entitlement and Acceptance Form, will be dispatched to Eligible Shareholders on Tuesday, 27 October 2020. The Company will have no responsibility and disclaims all liability (to the maximum extent permitted by law) to Eligible Shareholders or Ineligible Shareholders if you trade your Entitlements before the Entitlements are allotted, or before you receive your Entitlement and Acceptance Form, whether on the basis of confirmation of the allocation provided by the Company or otherwise.

A transferee who acquires an Entitlement on ASX will not receive a copy of this Prospectus or an Entitlement and Acceptance Form. The process in place for the transferee to exercise an Entitlement acquired on ASX is governed by the arrangements in place between the transferee and their stockbroker, and may vary between stockbrokers. The transferee should contact their stockbroker for instructions as to the most appropriate way to participate in the Entitlement Offer and to take up their Entitlement. The Company will have no responsibility and disclaims all liability (to the maximum extent permitted by law) to transferees who acquire Entitlements and fail to take up all or part of that Entitlement.

Any Eligible Shareholder who has not taken up or sold all of their Entitlements by the Closing Date or the date which Entitlement trading Ends (respectively), or an Ineligible Shareholder through the Nominee who has not sold all of their Entitlements by the date

which Entitlement trading ends, will automatically have the balance of their Entitlements lapse, with the forfeit of any potential benefit to be gained from taking up or selling that part of their Entitlement (where applicable).

5.5 Selling all or a portion of your Entitlement other than on ASX

You may elect to transfer all or a proportion of your Entitlement to another person other than on ASX. If the purchaser of your Entitlement is an Ineligible Shareholder or a person that would be an Ineligible Shareholder were they a registered holder of Shares, that purchaser will not be able to take up the Entitlement they have purchased.

If you are a Shareholder on the Issuer Sponsored subregister and you wish to transfer all or a proportion of your Entitlement to another person, other than on ASX, a completed standard renunciation and transfer form (which can be obtained from the Share Registry) must be received by the Share Registry (by post) at the address listed in the Corporate Directory, after the Opening Date and no later than 5.00pm (Sydney time) on Tuesday, 17 November 2020, the Closing Date, and accompanied by the applicable transferee's cheque for the New Shares they wish to subscribe for in Australian dollars, crossed "Not Negotiable" and made payable to "Pureprofile Ltd."

If you wish to transfer all or a proportion of your Entitlement to or from another person on the CHESSE subregister, you must engage your CHESSE controlling participant (usually your stockbroker). If the transferees want to exercise some or all of the Entitlement, you should follow your stockbroker's instructions as to the most appropriate way to take up the Entitlement on their behalf.

If the Company receives both a completed renunciation form and a completed Entitlement and Acceptance Form in respect of the same Entitlement, the renunciation will be given effect in priority.

The application moneys for New Shares that the transferee of the Entitlement wants to acquire must be received by the Share Registry after the Opening Date but no later than 5.00pm (Sydney time) on Tuesday, 17 November 2020, the Closing Date, by a cheque in Australian dollars, crossed "Not Negotiable" and made payable to "Pureprofile Ltd".

5.6 Eligible Shareholders may apply for Shortfall Shares

Entitlements not taken up may become available as Shortfall Shares. Eligible Shareholders who are not Related Parties may, in addition to their Entitlements, apply for Shortfall Shares over and above their Entitlement at the Issue Price, subject to the takeover prohibition in Chapter 6 of the Corporations Act. Shortfall Shares will be issued at the same Issue Price (A\$0.02) as the New Shares, representing a 16.67% discount to the closing price on 13 October 2020 (being the last trading date before the date of this Prospectus).

If you wish to subscribe for Shortfall Shares in addition to your Entitlement, then you should nominate the maximum number of Shortfall Shares you wish to subscribe for on the Entitlement and Acceptance Form and make payment for your full Entitlement plus the Shortfall Shares you wish to subscribe for (at A\$0.02 per Offer Share).

There is no guarantee that Eligible Shareholders will receive the number of Shortfall Shares they apply for, or that they will receive any Shortfall Shares at all. The Company reserves the right to scale-back any applications for Shortfall Shares in their absolute discretion and to ensure that no Shareholder will as a consequence of taking up their Entitlement and being issued any Shortfall Shares breach Chapter 6 of the Corporations Act. However, it is the sole responsibility of the Eligible Shareholder to determine the maximum level of New Shares for which they can apply for.

Where an Eligible Shareholder is not issued with the maximum number of Shortfall Shares they subscribed for, a refund without interest will be issued as soon as practicable after the Closing Date.

5.7 Allocation Policy

The allocation policy for Shortfall Shares subscribed for pursuant to the Shortfall Facility will be as follows:

- (a) to any Eligible Shareholders who have taken up their full Entitlement and have applied for Shortfall Shares through the Shortfall Facility by the Closing Date, unless there is an oversubscription for Shortfall Shares, in which case Shortfall Shares may be subject to scale-back and Eligible Shareholders will receive Shortfall Shares on a pro rata basis having regard to the proportion of oversubscription for Shortfall Shares;
- (b) to third party investors (including retail investors) who have been invited to apply for Shortfall Shares by the Company; and
- (c) thereafter, if any Shortfall Shares remain, to the Underwriters.

The following are some examples of situations illustrating the application of the allocation policy to the Underwriters depending on the amount of funds raised under the Offers:

Example 1: *If \$5 million is raised by the Company under the Offers, the Underwriters will be called upon for the amount of \$13.8 million. The allocation of those remaining Shortfall Shares to each of the Underwriters will be in accordance with their Underwriting Agreements, details of which are set out in section 6.6 of this Prospectus. The Company intends to use the funds as set out in section 6.2 of this Prospectus.*

Example 2: *If \$10 million is raised by the Company under the Offers, the Underwriters will be called upon for the amount of \$8.8 million. The allocation of those remaining Shortfall Shares to each of the Underwriters will be in accordance with their Underwriting Agreements, details of which are set out in section 6.6 of this Prospectus. The Company intends to use the funds as set out in section 6.2 of this Prospectus.*

Example 3: *If \$18.8 million is raised by the Company under the Offers, the Underwriters will not be called upon and the Company intends to use the funds as set out in section 6.2 of this Prospectus.*

The Directors reserve their rights to alter this allocation policy and to allocate and issue Shortfall Shares under the Shortfall Facility at their discretion, including for example, as to the multiple of Shortfall Shares to the Eligible Shareholder's original holding.

Related Parties, including Directors, are not entitled to subscribe for Shortfall Shares.

It is an express term of the Offers that Applicants for Shortfall Shares will be bound to accept a lesser number of Shortfall Shares allocated to them than applied for. If a lesser number is allocated to them, excess Acceptance Money (where the amount is A\$1.00 or greater) will be returned to Eligible Shareholders as soon as practicable following the Closing Date, without interest. You will be paid by cheque sent by ordinary post to your address as recorded on the share register (the registered address of the first-named in the case of joint holders). Alternatively, you will be paid by direct deposit where the Registry holds bank account details in respect of your shareholding.

If you make payment by BPAY®:

- (a) you do not need to submit the personalised Entitlement and Acceptance Form but are taken to make each of the statements and representations in that form; and

- (b) if your payment exceeds the amount payable for your full Entitlement, you are taken to have accepted your Entitlement in full and to have applied for such number of Shortfall Shares which is covered in full by your Application monies.

If you apply for Shortfall Shares under the Shortfall Facility and your Application is successful (in whole or in part), your Shortfall Shares will be issued at the same time as other Shortfall Shares are issued under the Shortfall Offer.

In addition, no Shares under the Entitlement Offer will be issued to any Eligible Shareholder or the Underwriters if, in the view of the Directors, to do so would result in a breach of the ASX Listing Rules, the Corporations Act or any other applicable law.

5.8 Allotment

As this is a fully underwritten Entitlement Offer, New Shares will be issued only after all Application Monies have been received. Issue and allotment of New Shares offered under the Entitlement Offer will take place within 5 Business Days after the Closing Date, in accordance with the ASX Listing Rules and the timetable set out in section 2.

Issue and allotment of New Shares offered under the Shortfall Offer will take place as soon as practicable and is expected to be no later than 15 Business Days after the Closing Date.

Prior to allotment, all Application monies shall be held by the Company on trust. The Company, irrespective of whether an allotment of New Shares takes place, will retain any interest earned on the Application monies.

Each of the Directors of the Company reserves the right to decline any Application. Where no allotment is made, the surplus Application monies will be returned by electronic funds transfer to the Applicant within 7 days of the allotment date or by cheque if bank details are not provided.

5.9 Minimum subscription

There is no minimum subscription for the New Shares as it is fully underwritten for A\$18,804,170.

The Company reserves its right to issue further securities in conjunction with the Offers using its existing 15% capacity under Listing Rule 7.1.

5.10 Quotation of Shares

The Company is a disclosing entity for the purposes of the Corporations Act and its Shares are quoted on ASX.

5.11 ASX listing

Application for Official Quotation of the New Shares offered pursuant to this Prospectus will be made in accordance with the timetable set out in section 2 of this Prospectus. In the event that ASX does not grant permission for the Official Quotation of the New Shares before the expiration of 3 months after the date of issue of this Prospectus (or such period as is varied by ASIC), the New Shares offered by this Prospectus will not be issued and the Company will repay all Application monies within the period set out under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the New Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

5.12 Clearing House Electronic Sub-register System (CHES) and Issuer Sponsorship

The Company will not be issuing Share certificates. The Company will apply to ASX to participate in CHES for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of Shares can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) setting out the number of New Shares allotted to them under this Prospectus. The notice will also advise holders of their Holder Identification Number (**HIN**) and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

5.13 Underwriting

The Entitlement Offer is fully underwritten: Lucerne Finance Pty Ltd (ACN 618 123 845) (**Lucerne**) as to \$15.3 million and Peloton Capital Pty Ltd (ACN 149 540 018) (**Peloton**) as to \$3.5 million (together, the **Underwriters**) have agreed to underwrite to the amount of A\$ \$18.8 million (subject to rounding), representing the total maximum amount which can be raised under the Entitlement Offer.

Lucerne Finance Pty Ltd is an entity associated with a former director of the Company, Mr Aaryn Nania. Mr Nania ceased to be a Director of Pureprofile effective 2 September 2020. Pursuant to s 228(5) of the Corporations Act, Mr Nania is a related party of the Company as 6 months has not yet elapsed since his resignation as a Director. Mr Nania is a director of the entity, Principis Master Fund SPC (Registration No. 1297656) who act for and on behalf of the Lucerne Composite Master Fund SP, together the '**Agent**'. The Agent is a party to the finance arrangements alongside the lender, Lucerne Finance Pty Ltd which are summarised in section 6.7 of this Prospectus, however Mr Nania is not a director of Lucerne Finance Pty Ltd, the entity also underwriting the Offers. The Board of PPL considers that the underwriting arrangements between the Company and Lucerne are on an arms length commercial terms and Mr Nania did not take part in any of the negotiations (either on behalf of the Agent, Lucerne Finance Pty Ltd or the Company) in relation to the proposed restructuring of the finance arrangements, the underwriting by Lucerne Finance Pty Ltd or the Offer.

By an agreement between each of the Underwriters and the Company (the **Underwriting Agreements**):

- (a) Lucerne has agreed to conditionally underwrite \$15.3 million of any remaining Shortfall Shares from the Offers (**Lucerne Underwriting Agreement**); and
- (b) Peloton has agreed to conditionally underwrite \$3.5 million of any remaining Shortfall Shares from the Offers (**Peloton Underwriting Agreement**).

Peloton will underwrite the first \$1.5 million of any Shortfall Amount remaining unsubscribed following the Offers, with any remaining Shortfall Shares being distributed to the Underwriters on a pro rata basis as detailed in section 6.6 of this Prospectus.

The potential effect that the Offers will have on the control of the Company, and the consequences of that effect, will depend on a number of factors. Each of the Underwriter's relevant interests in the Company following the Offers will depend upon the number of New Shares taken up by Eligible Shareholders and investors under the Offers. However, given the structure of the Offers, the Offers may have a material effect on the dilution or control (or both) of the Company.

Assuming no further Shares are issued prior to the Record Date, the potential voting power based on the percentage of subscriptions under the Offers, of each of the Underwriters following completion of the Offers will be as follows:

Underwriter	Total % of subscriptions under the Offers ^(a)					
	0%	20%	40%	60%	80%	100%
	Underwriter's Voting Power					
Lucerne	72.34%	54.57%	37.64%	23.17%	8.70%	0%
Peloton	16.54%	16.54%	15.70%	12.39%	9.08%	0%

Notes: ^(a) This calculation is based on the total subscriptions from the Entitlement Offer, additional subscriptions from Eligible Shareholders and third party investors under the Shortfall Facility. Voting power is calculated based on the Company's total issued capital at completion of the Offers.

The Company notes that Lucerne could potentially hold more than 20% of the Company's total issued capital at completion of the Offers. The Company understands that the intentions of Lucerne, should it obtain a controlling interest in the Company as a result of the Offers, to be as follows:

- (a) continue the same business operations of the Company, as notified to the ASX by the Company;
- (b) not immediately change the business of the Company or redeploy the fixed assets of the Company or to transfer any property between the Company and Lucerne;
- (c) not significantly change the financial or dividend distribution policies of the Company; and
- (d) will use commercially reasonable efforts to sell down any interest above 20% within 6 months.

The intentions are based on information concerning the Company, its business and the business environment that is known to Lucerne as at the date of this Prospectus.

These present intentions may change as new information becomes available, as circumstances change in light of all material information, facts and circumstance necessary to assess the operational, commercial, taxation and financial implications of those decisions at the relevant time.

A summary of the underwriting agreements entered into with the Underwriters is at Section 6.6 of the Prospectus.

Lucerne has agreed (subject to certain conditions) to forgive approximately \$7.3 million of its current existing debt and has also agreed to refinance the remainder of its existing debt being \$3.0 million. 6.4 Effect on Control

The potential effect the Offers will have on the control of the Company, and the consequences of that effect, will depend on a number of factors, including investor demand. However, given the structure of the Offers and the underwriting arrangements, the Offers may have a material effect on the dilution or control of the Company or both. The risks associated with dilution are further set out in Section 6.5 of this Prospectus.

The potential effect on control is summarised below:

- (a) If all Eligible Shareholders take up their Entitlements under the Entitlement Offer, and all rights attaching to Ineligible Shareholders are taken up by other new shareholders, then the Entitlement Offer will have no significant effect on the control of the Company;

- (b) If some Eligible Shareholders do not take up all of their Entitlements under the Entitlement Offer, then the interests of those Eligible Shareholders in the Company will be diluted;
- (c) The proportional interests of shareholders of the Company who are not Eligible Shareholders will be diluted because such shareholders are not entitled to participate in the Entitlement Offer;
- (d) Eligible Shareholders that apply for Shortfall Shares under the Shortfall Facility may increase their interests beyond their Entitlement;
- (e) The Entitlement Offer is fully underwritten by the Underwriters to the amount of \$18,804,170 (subject to rounding);
- (f) If some Eligible Shareholders do not take up all of their Entitlements under the Entitlement Offer, and other Eligible Shareholders do not take up all of the Shortfall Shares, Shortfall Shares will be available for third party investor subscriptions and the control of those investors will increase;
- (g) If some Eligible Shareholders do not take up all of their Entitlements under the Entitlement Offer, and the Shortfall Shares are not fully subscribed by Eligible Shareholders and third party investors, then the control of the Underwriters will increase depending on the level of uptake under the Entitlement Offer and the Shortfall Facility. The effect on the Underwriters' control is illustrated in the table below.

Assuming no further Shares are issued prior to the Record Date, the potential voting power based on the percentage of subscriptions under the Offers, of each of the Underwriters following completion of the Offers will be as follows:

Underwriter	Total % of subscriptions under the Offers ^(a)					
	0%	20%	40%	60%	80%	100%
	Voting power of the Underwriters					
Lucerne	72.34%	54.57%	37.64%	23.17%	8.70%	0%
Peloton	16.54%	16.54%	15.70%	12.39%	9.08%	0%

Notes: ^(a) This calculation is based on the total subscriptions from the Entitlement Offer, additional subscriptions from Eligible Shareholders and third party investors under the Shortfall Facility. Voting power is calculated based on the Company's total issued capital at completion of the Offer.

The above table shows that if less than 65% of New Shares are subscribed for, then Lucerne will have voting power above 20%. However, if more than 65% of the Entitlement Offer is subscribed for, then no Shareholder will have voting power of greater than 20% at completion of the Offers.

Related Parties (which include Directors of the Company) are not entitled to subscribe for Shortfall Shares. Other Eligible Shareholders and third party investors (including retail investors) can subscribe for Shortfall Shares under the Shortfall Facility, which will assist in reducing the amount of Shortfall Shares required to be subscribed for by the Underwriters and therefore assist in reducing any potential effect on control.

6.5 Dilution

Shareholders who do not participate in the Entitlement Offer will have their holdings diluted. Following is a table which sets out the dilutionary effect, assuming no further Shares are issued:

Holder	Holding at Record Date			Holding following the Offer if no Entitlement is taken up	
	Number	%	Entitlement	Number	%
Shareholder 1	100,000	0.09%	800,000	100,000	0.01%
Shareholder 2	500,000	0.43%	4,000,000	500,000	0.05%
Shareholder 3	1,000,000	0.85%	8,000,000	1,000,000	0.09%
Shareholder 4	5,000,000	4.25%	40,000,000	5,000,000	0.47%
Shareholder 5	7,000,000	5.96%	56,000,000	7,000,000	0.66%

As the Offers are fully underwritten, any Shareholder who does not participate in the Entitlement Offer will have their voting power diluted by approximately 88.9%.

6.6 Underwriting Agreements

The Entitlement Offer is fully underwritten. Lucerne and Peloton have agreed to underwrite \$18,804,170 (subject to rounding) in aggregate, representing 100% of the total maximum amount which can be raised under the Entitlement Offer.

Pursuant to the Underwriting Agreements:

- (a) Lucerne has agreed to conditionally underwrite \$15,304,170 of any remaining Shortfall Shares from the Offers; and
- (b) Peloton has agreed to conditionally underwrite \$3,500,000 of any remaining Shortfall Shares from the Offers (**Peloton Commitment**).

Peloton will underwrite the first \$1.5 million of any Shortfall Amount after the Offers, with any remaining Shortfall Shares being distributed to the Underwriters on a pro rata basis. The following table provides some examples of situations depicting the allocation policy to the Underwriters depending on the amount of funds raised under the Offers:

Amount Raised ^(a)	Shortfall Amount ^(b)	Peloton Priority	Remaining Shortfall Amount after Priority	Peloton Pro Rata	Total Peloton Allocation	Lucerne Allocation
\$ 0	\$18,804,170	\$1,500,000	\$17,304,170	\$2,000,000	\$3,500,000	\$15,304,170
\$1,000,000	\$17,804,170	\$1,500,000	\$16,304,170	\$2,000,000	\$3,500,000	\$14,304,170
\$5,000,000	\$13,804,170	\$1,500,000	\$12,304,170	\$2,000,000	\$3,500,000	\$10,304,170
\$10,000,000	\$8,804,170	\$1,500,000	\$7,304,170	\$1,359,517	\$2,859,517	\$5,944,653
\$12,500,000	\$6,304,170	\$1,500,000	\$4,804,170	\$894,195	\$2,394,195	\$3,909,975
\$15,000,000	\$3,804,170	\$1,500,000	\$2,304,170	\$428,873	\$1,928,873	\$1,875,297
\$17,500,000	\$1,304,170	\$1,304,170	\$0	\$0	\$1,304,171	\$0

Notes: ^(a) The amount raised is based on the total funds raised from the Entitlement Offer, additional subscriptions from Eligible Shareholders and third party investors under the Shortfall Facility.

^(b) The Shortfall Amount is calculated after the Entitlement Offer, subscriptions by Eligible Shareholders and third party investors under the Shortfall Facility.

Under the Lucerne Underwriting Agreement, if there is no uptake under the Entitlement Offer and the Shortfall Facility by Eligible Shareholders and other investors, Lucerne will be effectively “converting” \$15.3 million of its debt to equity in the Company via its underwriting arrangement. Whereas, if there is some uptake under the Entitlement Offer and the Shortfall Facility by Eligible Shareholders and other investors, Lucerne will be required to partially underwrite the Offers (refer to the table above). No fees are payable to Lucerne under the Lucerne Underwriting Agreement. The following table provides some examples of situations depicting the effective “debt to equity conversion” depending on the amount of funds raised under the Offers:

Debt to Equity Conversion					
Amount Raised from Shareholders and Investors ^(a)	Total Cash Available ^(b)	Funds going to the Company to invest into Growth	Funds available to pay down the Lucerne Debt	Debt to be Converted into Equity \$	No. of Shares issued to Lucerne

\$12,500,000	\$14,894,195	\$3,500,000	\$11,394,195	\$3,909,975	195,498,749
\$15,000,000	\$16,928,873	\$3,500,000	\$13,428,873	\$1,875,297	93,764,865
\$17,500,000	\$18,804,170	\$3,500,000	\$15,304,170	\$-	-

Notes: ^(a) Excludes the Underwriting commitment from Peloton.

^(b) Total cash available represents funds raised from Shareholders, third party investors and the Peloton Underwriting Agreement.

Under the Peloton Underwriting Agreement, the Company has agreed to pay an underwriting fee of:

(a) 6% of the Peloton Commitment (plus GST); and

(b) 15,000,000 unlisted, fully-vested options exercisable at \$0.03 per option and which expire 2 years from the date of issue.

8. INVESTMENT RISKS

There are risks associated with any investment. The following highlights some of the risks that potential investors should consider prior to entering into the investment opportunity referred to in this Prospectus. However, the following is not, and does not purport to be, a comprehensive statement of all relevant risks. Potential investors must seek their own professional advice in relation to the risks and must make their own risk assessment regarding an investment in the Company.

The Directors have reviewed and considered these risks, ways to reduce the likelihood of these risks eventuating and ways to reduce their impact if they do eventuate.

The factors below may materially affect the financial performance of the Company and the value of the Company's Shares. Therefore, the New Shares carry no guarantee with respect to the payment of dividends, return on capital or the market value of those securities.

The following summary, which is not exhaustive, represents some of the major risks associated with an investment in the Company and, therefore, the Group.

In deciding whether or not to apply for New Shares, you should carefully consider these risks, as well as the other information contained in this Prospectus.

8.1 Specific risks in relation to the Group

Competition

(a) Market Research

The Company confronts a number of competitors in the market research industry for its core suite of services. Meanwhile, its technology platform offering competes with various Software-as-a-Service solutions in the database management/CRM industry. Both of these industries include several competitors which are significantly larger than the Company in terms of their financial, marketing and other resources. Some competitors also have a strong global presence. Furthermore, some offer specialised products and services which are outside of the Company's suite of offerings.

The Company is a market leading innovator, however it must continue to compete effectively on quality of services and technology, timely delivery of survey results, information and analysis, customer service and possess the ability to offer services to meet changing market needs or prices.

Although the Company believes that it is currently able to compete effectively, there is no firm assurance that the Company will be able to successfully compete against current and future competitors or be capable of maintaining or further increasing its current market share. If the Company's competitiveness declines, it could result in loss of market share, a perception of diminished value in its service offerings, reduced pricing and increased expenditure on marketing to existing and prospective clients.

(b) Digital Advertising and Performance Marketing Industry

Many businesses in the digital advertising and marketing industry are significantly larger than the Company in terms of their financial, marketing and other resources.

As the industry continues to expand and mature, various businesses (both in Australia and internationally) are introducing or expanding their offerings. Notably, these include programmatic advertising platforms and services which are lower cost and compete with or are perceived to compete with traditional advertising sales methods. These programmatic advertising offerings have gained increasing acceptance by media buying

agencies and advertisers over recent years. These trends could continue, especially if the algorithms and technology underpinning programmatic advertising platforms becomes increasingly sophisticated.

The Company's highly targeted advertising offering also competes with major social media platforms such as Facebook which have established significant advertising platforms with strong targeting capabilities based on social media profiles and data.

In addition, the Company's Performance Marketing business is focused primarily in the UK market. Increasing competition and saturation within the market may limit growth opportunities or reduce revenue from the sector in the future.

The Company will seek to mitigate the risks associated with the proliferation of programmatic advertising platforms and social media advertising offerings by demonstrating (to advertisers/media buyers) that it is installing programmatic based technology to complement the highly targeted advertising it can serve to audiences who are registered on the Company's platform and the associated potentially superior return on investment for advertisers (superior relative to programmatic and social media offerings). However, there is no guarantee that this advertising sales strategy will succeed.

Technology and intellectual property risks

In order to remain competitive, the Company must maintain and constantly enhance sophisticated data collection, processing systems, software and other technology. Emerging new technologies may impede the Company's ability to derive future income.

The Company relies on a combination of patents, copyright, trademark, trade secret, confidentiality, non-compete and other contractual provisions to protect its intellectual property rights. However, these legal measures afford only limited protection and may not provide sufficient protection to prevent the infringement, misuse or misappropriation of the Company's intellectual property. Accordingly, this could adversely affect the Company's competitive position.

The patent the Company owns (and any future applications for or granting of patents) could be challenged, invalidated or circumvented by others and may not be of sufficient scope or strength to provide meaningful protection or commercial advantage. Although employees, consultants and clients enter into agreements containing obligations of confidentiality, the Company's trade secrets, data and know-how could be subject to unauthorised use, misappropriation or unauthorised disclosure. The Company's future financial performance may be impacted by the failure to protect its intellectual property.

Security risks

Cyber-attacks are increasing worldwide in frequency and severity. No information technology environment is impenetrable. The Company maintains appropriate actions, systems and safeguards to protect against data breaches and aims to keep to a low risk the adverse consequences arising from a breach on the Company's business and operations.

Operating risks

Any system delays or failures, including network, software or hardware failures that cause an interruption in the Company's ability to communicate with account holders, collect data or protect materials included in profiles, could result in reduced revenue, reputational damage and have a material adverse effect on the business.

Additionally, significant delays in the planned delivery of platform enhancements and improvements or inadequate performance of these systems once they are completed, could lead to reputational damage and harm the business.

Regulatory risk and government policy

The Company's operating results are influenced to some extent by the risks inherent in its overseas business activities, including those in the UK, US and India, including general political and economic conditions in each country, changes in market demand, challenges in staffing and managing foreign operations, changes in regulatory requirements, compliance with foreign laws and regulations, foreign tax rates and laws, currency exchange fluctuations, issues in collecting accounts receivable and protecting intellectual property rights. The Company has little or no control over these risks. Consequently, there can be no firm assurance that the Company can effectively limit these risks, which could materially adversely affect its business, financial condition and results of operations.

Loss of large clients

The Company cannot provide any firm assurance that any of its existing clients will continue to use its services to the same extent, or at all, in the future.

A loss of one or more of the Company's existing clients, if not replaced, would adversely affect the Company's prospects, operations, revenues, and financial condition. As at the date of this Prospectus, the Company has no clients that constitute 10% or more of its total annual revenue.

Management actions

The Directors will, to the best of their knowledge, experience and ability (in conjunction with the management team) endeavour to anticipate, identify and manage the risks inherent in the activities of the Company, but without assuming any personal liability, with the aim of eliminating, avoiding and mitigating the impact of risks on the performance of the Company and its securities. This includes risks arising from the Company's reliance on a number of key employees. The Company has in place employment contracts with key employees and has the objective of providing attractive employment conditions to assist in retaining key employees. However, there is no guarantee that the Company can or will retain its key employees.

Exchange rates

The Company derives revenue in currencies other than Australian dollars. In light of the fluctuations in currency exchange rates, the Company is subject to currency translation exposure in its financial results which could affect its balance sheet and cash position.

Significant dilution of existing shareholding in the Company

Shareholders who do not take up their Entitlements in full will have their percentage interest in the Company reduced. Assuming the full amount is raised, the dilution to existing Shareholders who do not take up their Entitlements will be material as their voting power will be diluted by approximately 88.9% as compared to their percentage interest in the Company as at the Record Date.

Equity underwriting

The Company has entered into underwriting agreements under which the Underwriters have agreed to fully underwrite the Offers under this Prospectus, subject to the terms and conditions of the Underwriting Agreements, which are summarised in section 6.6 of this Prospectus. Prior to settlement of the Offers, there are certain events which, if they were to occur, may affect the Underwriters' obligations to underwrite the Offers under this Prospectus. If certain conditions are not satisfied or certain events occur under the underwriting agreements, the Underwriters may not be under an obligation to subscribe for the Shortfall Shares, which may require the Company to search for alternative financing. If the Underwriters are not obligated to subscribe for the Shortfall Shares for

any reason, then the Company may not receive the full amount of the proceeds expected under the equity raising, its financial position might change, and it might need to take other steps to raise capital.

Future dilution of shareholding in the Company

The allotment and issue of any new Shares is under the control of the Board. Subject to restrictions on the issue or grant of Securities contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred upon the holder of an existing Share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine. This may dilute the shareholding of shareholders at the time of issue.

8.2 General risks to the Group

Share market conditions

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

Economic factors

The operating and financial performance of the Company is influenced by a variety of general economic and business conditions including the levels of consumer confidence and spending, business confidence and investment, employment, inflation, interest rates, foreign exchange rates, access to debt and capital markets, fiscal policy, monetary policy and regulatory policies. A prolonged deterioration in any number of the above factors may have a material adverse impact on the Company's business and financial performance including its ability to fund its activities.

COVID-19 pandemic

The COVID-19 pandemic has to date created significant economic and social challenges in Australia and around the world. There is continued uncertainty in relation to the ongoing impacts of the pandemic which, to date, have included a general contraction in output, increased levels of unemployment and restrictions on movement.

In response, the Company has concentrated on preserving cash and long term shareholder value while maintaining focus on service of new and existing clients. In particular, during the period between March 2020 and September 2020, the Company implemented a number of initiatives, including suspending directors fees; introducing pay cuts or reduced working hours for other employees and contractors; negotiating a reduction or deferral of payments for other operating expenses and supplier payments; and applying for JobKeeper assistance.

The Company will continue to closely monitor developments related to COVID-19 and is cognisant of its duty to responsibly manage and, where possible mitigate the risks posed by the global pandemic.

Additional capital requirements

Further funding may be required to advance the business objectives of the Company or for working capital purposes and there can be no assurance that additional funding will be available on satisfactory terms or at all. Any inability to obtain funding may adversely affect the financial condition of the Company and consequently, the value of its Shares. The Company's ability to effectively implement its business strategy over time may depend in part on its ability to raise additional funds. There can be no guarantee that the

funds raised through the Offers under this Prospectus will be sufficient to achieve all of the objectives of the Company's overall business strategy. If the Company is unable to secure further debt or equity to fund the objectives of its business strategy after the substantial exhaustion of the net proceeds from the Entitlement Offer, there can be no assurance that the Company will have sufficient capital resources for that purpose, or other purposes, or that it will be able to obtain additional funding on favourable terms or at all. If adequate funds are not available on acceptable terms, the Company may not be able to take advantage of opportunities or otherwise respond to competitive pressures.

Potential acquisitions and divestments

As part of its business strategy, the Company may make acquisitions of, or significant investments in, complementary companies, products or technologies and make asset divestments. Any such transactions would be accompanied by the risks commonly encountered in making acquisitions of companies, products and technologies and any divestment activity could result in realising values less than fair value.

Unforeseen expenses

While the Company is not aware of any expenses that may need to be incurred that have not been taken into account, if such expenses were subsequently incurred, the expenditure proposals of the Company may be adversely affected.

Investment speculative

The above list of risk factors is not an exhaustive list of the risks faced by the Company or by investors in the Company. The above factors, and other not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Shares offered under this Prospectus.

Therefore, the New Shares to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Shares. Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for New Shares.

11. RIGHTS AND LIABILITIES ATTACHING TO NEW SHARES

The following is a summary of the more significant rights attaching to the New Shares. **This summary is not exhaustive** and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights attaching to Shares are set out in the Company's Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

11.1 Rights attaching to New Shares

Ordinary shares

The New Shares to be issued under this Prospectus will rank equally with the existing fully paid ordinary Shares on issue in the Company. The rights attaching to Shares are set out in the Company's Constitution and, in certain circumstances, are regulated by the Corporations Act, the Listing Rules and general law.

General meetings

Shareholders are entitled to be present in person or by proxy, attorney or representative to attend and to vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution.

Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or of classes of Shareholders:

- (a) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (b) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each Share held by that person or in respect of which the person is appointed proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid Shares shall have a fraction of a vote equivalent to the proportion which the amount paid up bears to the total issue price for the Share.

Dividend rights

The Board may from time to time declare and pay or credit a dividend in accordance with the Corporations Act. Subject to any special right as to dividends attaching to a Share, all dividends will be declared and paid according to the proportion of the amount paid on the Share to the total amount payable in respect of the Shares (but any amount paid during the period in respect of which a dividend is declared only entitles the Shareholder to an apportioned amount of that dividend as from the date of payment). The Directors may from time to time pay or credit to Shareholders such interim dividends as they may determine. No dividends shall be payable except out of profits. A determination by the Board as to the profits of the Company shall be conclusive. No dividend shall carry interest as against the Company.

The Board may from time to time grant to Shareholders or to any class of Shareholders the right to elect to reinvest cash dividends paid by the Company by subscribing for Shares on such terms and conditions as the Directors think fit. The Directors may at their discretion resolve, in respect of any dividend which it is proposed to pay or to declare on any Shares, that holders of such shares may elect to forgo their right to the whole or part of the proposed dividend and to receive instead an issue of Shares credited as fully paid to the extent and on the terms and conditions provided for in the Constitution. The Directors may set aside out of the profits of the Company such amounts as they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may properly be applied.

Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he or she considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other Securities in respect of which there is any liability.

Transfer of Shares

Generally, Shares are freely transferable, subject to formal requirements, and so long as the registration of the transfer will not result in a contravention of or failure to observe the provisions of a law of Australia, including the Corporations Act and the Listing Rules.

Variation of rights

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of at least three quarters of the issued shares of that class or, if authorised by a special resolution passed at a separate meeting, of the holders of the shares of that class.
